

SDG Goal 5 Gender equality

SDG Target 5.b Enhance the use of enabling technology, in particular information and communications technology, to promote the empowerment of women

SDG Indicator 5.b.1 Proportion of individuals who own a mobile telephone, by sex

1. Name of data series	
Penetration rate mobile communication (related to the population)	
Compliant with SDG metadata: no	SDG Metadata

2. Definition of indicator	
The indicator measures the number of SIM cards in relation to the total population.	
3. Comparison with SDG metadata (as of 16/07/2016)	
The indicators only gives the total number of SIM cards, no information about the distribution in the population is given.	

4. Data description	
The data is part of the yearly report of the Bundesnetzagentur. One of the responsibilities of the Bundesnetzagentur is the regulation of the telecommunications market. Part of the regulation is a yearly report, which gives an overview of the current market situation.	
5. Calculation method	
$\text{Penetration rate mobile communication} = \frac{\text{Number of SIM cards}}{\text{Population}} * 100$	
6. Unit of measure	%

7. Timeliness	8. Frequency
t + 1 year	Annual
9. Last regular revision	10. Revised period
Not applicable	Not applicable

11. Accessibility of source data	
Annual reports of the Bundesnetzagentur: https://www.bundesnetzagentur.de/EN/General/Bundesnetzagentur/Publications/publications_node.html;jsessionid=35DCC56CFC3655A10C00CEED15B08EB8	
12. Metadata on source data	
Not available	

13. Related SDG data series (duplicate indicators or sub-indicators to same indicator)
--

5.b.1 Private households with at least one mobile phone

SDG Goal 5 Gender equality

SDG Target 5.b Enhance the use of enabling technology, in particular information and communications technology, to promote the empowerment of women

SDG Indicator 5.b.1 Proportion of individuals who own a mobile telephone, by sex

1. Name of data series	
Private households with at least one mobile phone	
Compliant with SDG metadata: no	SDG Metadata

2. Definition of indicator	
The indicator measures the share of private households with at least one mobile phone.	
3. Comparison with SDG metadata (as of 16/07/2016)	
The indicator reports on the private household level, not as required from the SDG metadata on the individual.	

4. Data description	
The data is part of the "Laufende Wirtschaftsrechnungen" (LWR). The LWR is a household survey, which is conducted by the Federal Statistical Office	
5. Calculation method	
<p style="text-align: center;">Private households with at least one mobile phone</p> $= \frac{\text{Private households with at least one mobile phone}}{\text{Private households in survey}} * 100$	
6. Unit of measure	%

7. Timeliness	8. Frequency
t + Q3	Annual
9. Last regular revision	10. Revised period
Not applicable	Not applicable
