1. Name of data series	
Persons employed in tourism industries	
Compliant with SDG metadata: no, metadata not available	

2. Definition of indicator	
<p>The data series measures the persons employed in direct tourism industries. Direct tourism industries means hereby, that only industries which – put simply – have direct contact with visitors are considered. Industries only supplying to industries in direct contact with visitors are not included.</p> <p>Employment is defined according to the System of National Accounts thus based on the domestic concept. This means, that the place of work is the determining factor not the place of residence of the person employed. A person living in Germany but working abroad is not included, while a person living abroad but working in Germany is.</p>	
3. Comparison with SDG metadata	
No metadata available	

4. Data description	
<p>Data is derived from two studies commissioned by the Federal Ministry for Economic Affairs and Energy and carried out by Bundesverband der Deutschen Tourismuswirtschaft, DIW Econ and others. It is based on the implementation of the Tourism Satellite Account, an international standard statistical framework for the economic measurement of tourism, for Germany.</p> <p>Data for 2010 is based on the German Classification of Economic Activities from 2003 (WZ 2003), while data for 2015 is based on the German Classification of Economic Activities from 2008 (WZ 2008) and hence is based on a different product classification. Furthermore the differentiation of tourism characteristic goods was slightly changed. Hence the given data is not comparable over time.</p>
