SDG Goal 17 Partnerships for the goals

SDG Target 17.15 Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development

SDG Indicator 17.15.1 Extent of use of country-owned results frameworks and planning tools by providers of development cooperation

1. Name of data series
Proportion of new development interventions draw their objectives from country-led results frameworks

Compliant with SDG metadata: yes, but only refers to Germany	**SDG Metadata**

2. Definition of indicator
This indicator measures the extent to which, and the ways in which, all concerned development partners use country-led results frameworks (CRFs) to plan development cooperation efforts and assess their performance.
The indicator assesses the degree to which providers of development cooperation (i.e. development partners) design their interventions by relying on objectives and results indicators that are drawn from country government-led results frameworks reflecting the country's development priorities and goals.

3. Comparison with SDG metadata
Compliant with the UN metadata.

4. Data description
For each development intervention of significant size (US$ 100,000 and above) approved during the year of reference, the following dimensions are assessed:
Q1. Whether objectives are drawn from government-led results frameworks, plans and strategies 0/1
Q2. Share of results (outcome) indicators that are drawn from government-led results frameworks, plans and strategies %
Q3. Share of results (outcome) indicators that will rely on sources of data provided by existing country-led monitoring systems or national statistical services to track project progress %

5. Calculation method
Complex calculations. Please see under following link (page 27 ff):
https://unstats.un.org/sdgs/files/metadata-compilation/Metadata-Goal-17.pdf

6. Unit of measure	Not applicable

7. Timeliness	8. Frequency
